Product Description

Amazon.com Product Description

The Aquaglide Platinum Airport Swim Raft Lounge is ideal for camps, resorts, families, or anyone looking for a high-quality, season-long water-sports platform. A massive 90 square feet, the Platinum Airport gives you plenty of room to spread out and share the fun with friends.

With a 26-gauge inner PVC bladder covered with heavy duty 28-ounce 500d Duratex material, the Platinum Airport is built to last. Since UV damage is typically the biggest culprit in shortening the life of commercial watersports products, each Aquaglide Platinum item is treated with UV Block for years of UV protection. In addition, the Platinum Airport uses patented RF Weld radio frequency welding for clean, strong seams with no unsightly glue marks or splits.

The Platinum Airport also features the Interloc system of heavy-duty stainless fittings and straps that allow you to connect with other Aquaglide Platinum products. Getting on the Platinum Airport is easy with three convenient boarding handles, as well as the SwimStep access platform.

For your peace of mind, the Platinum Airport includes a warranty covering any and all manufacturing defects for an extended period of time, as well as a three-year limited warranty for recreational use.
